

Bigger Pictures, Better Results at Work.

A projector delivers a big impact, but to deliver a quality image, you need a quality screen. Whether it's data, audio/visual, presentations or a DVD, a Grandview screen will deliver reliable performance and ease of use every time.

Choosing the right Grandview screen is easy. In a dedicated space such as a boardroom, a fixed frame screen will deliver great results. In a general seminar room or classroom, a roller screen is more appropriate.

If you're someone who's always on the move, take a look at the portable screens. See overleaf for the full range and visit www.grandviewscreens.com.au for detailed specifications.

Get the Bigger Picture at Home.

To really create the big screen experience, you need a quality screen. With a Grandview screen, everyone will want to get in on the fun. Whether you are watching your favourite movie or sport, Grandview will get you right in the middle of the action.

Choosing the right Grandview screen is easy. If you've got a dedicated cinema, a fixed frame screen will deliver the best results or for a living room try a motorised or pull-down roller screen.

The Grandview range of portable screens are ideal for people on the go. A great way to share the big screen experience with your friends.

See overleaf for the full range, and visit www.grandviewscreens.com.au for detailed specifications.

The Big Picture Solution

The Big Picture on the Move
